

MCS 2020– 2021
Miss Katy’s Kindergarten
Supply List

Due to concerns about germs, I’m going to try and have children use all their own supplies, and put away our shared bins of art supplies for now.

- Backpack (needs to be large enough to carry lunch and take-home-folder—“kid size” backpacks are often too small for this)
- 12 Ticonderoga pencils, **mark each pencil with child’s name**
- Crayola crayons, 64 colors, **mark each box with child’s name**
- 2 sets Crayola Super Tips markers of 20 (or more colors), **mark each marker with the child’s name** (*I am asking for two packages because one package will be all used up by Christmas. I am asking for the sets of 20 because having more than just the basic 8 colors is important to the children.*)
- Plastic pencil box for the markers **marked with the child’s name**
- 1 package **fine tip** dry erase markers, **marked with child’s name**
- Whiteboard eraser (an old sock or glove is fine), **marked with child’s name**
- Zipper bag for dry erase set-up (not Ziploc, but the kind that has an actual zipper and can be snapped into a notebook) **marked with child’s name**
- Watercolor paints (the kind with two rows of colors), **marked with child’s name**
- 1 pair of school scissors, **marked with child’s name**
- 1 roll of Scotch tape, **marked with child’s name**
- Special “Take-Home-Folder,” **marked with child’s name**. Please get a plastic folder since this goes back and forth every day from school all year long and it needs to last.
- One complete change of clothes, including underwear and socks, **in Ziploc bag, marked with child’s name**
- 1 box Dixie cups
- 200 paper napkins
- 12 rolls paper towels
- 1 ream of paper (choose from white, white or colored cardstock, or construction paper)

Choose two from the following list:

- Clorox or Lysol wipes
- Rubbing alcohol 70%
- 1 box of Nitrile gloves

**Crayola is actually enough better quality that it is worth getting instead of CrazyArt or other brands.*

Snack Program: \$25/Semester, or \$50 for entire year.

It is my goal to keep snacks healthy (low or no sugar, no additives, quality ingredients, fresh fruits or vegetables as often as possible), and we will save treats (sugar!) for birthdays and special occasions. Please let me know if you have special dietary needs or any questions, comments, or concerns—I am always happy to talk with you!

How to mark small items... In my observation, the marking technique that lasts the longest is to write on the pencil or marker with Sharpie, then cover the writing with a piece of clear packing tape.
