

Marshalltown Christian School

Weather Alert

January 28, 2014

The Marshalltown Christian School Board met last night and made the decision to have school regardless of wind-chill or heat. The Marshalltown Schools cancel because of students needing to walk or ride the bus to school. That puts those students at a high risk for potential health problems. We are fortunate that our parents drive our students to school, therefore our students stay safe.

Starting Wednesday, January 29th, we will have school even if the Marshalltown Public School District cancels class due to low wind-chill factors. We will also have school even if the District cancels due to excessive heat in the fall as we have air conditioning. In addition, we will start on time unless you are otherwise notified.

Note: If the public school district cancels because of snow blizzards or dangerous ice, we will cancel our school as well.

I am working with Dr. Wade, Superintendent of Marshalltown School District, to continue TV notification on channels 13 and 8.

If you have concerns or questions, please feel free to contact me.
